Tamagawa Earns spot in Boeing Premier Bidder Program

Iida City, Japan - Tamagawa Seiki Co., Ltd. today announced it has earned a spot in the Boeing Premier Bidder Program. The program recognizes and rewards consistently high performing Boeing Commercial Airplanes suppliers and gives them an opportunity to increase their business with Boeing.

Tamagawa products are mainly used for Flight Control System and Cockpit/Pilot Control System and match to various requirements by custom solution. Based on long experience of production for Japanese Self Defense Force aircrafts, Tamagawa's aerospace business has been grown to commercial aircraft applications supplied to aircraft producers and Tier 1 system integrators in recent years.

Tamagawa Seiki has been selected to supply Angular Sensor Units for Flight Control Devices for the Boeing 777X and other airplane programs. This tier 1 contract with Boeing exhibits Tamagawa's commitment to the company's presence in the commercial aerospace system equipment market and the advancement of the aerospace industry within the Iida region.

Tamagawa Seiki joins approximately 100 suppliers that have met and/or sustained the high quality and delivery criteria required for inclusion in the Premier Bidder Program.
